

Where the shipped method does not act -- and what forcing it does

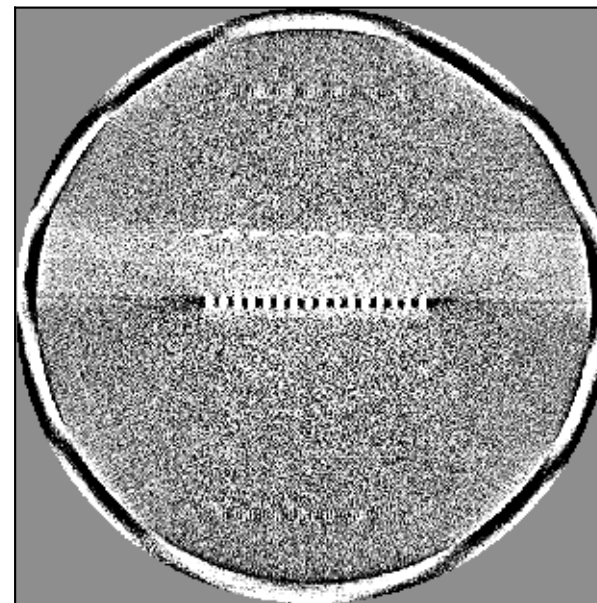

z62 --- undamped

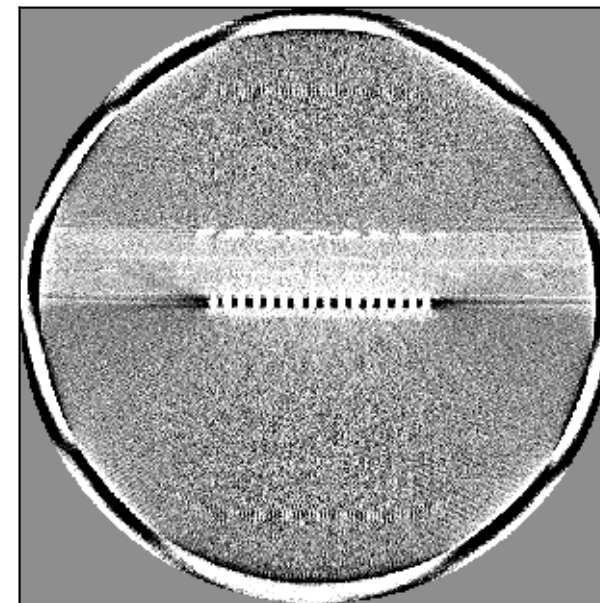

z62 --- damped, trigger overridden

HART --- undamped

HART --- damped, guards overridden

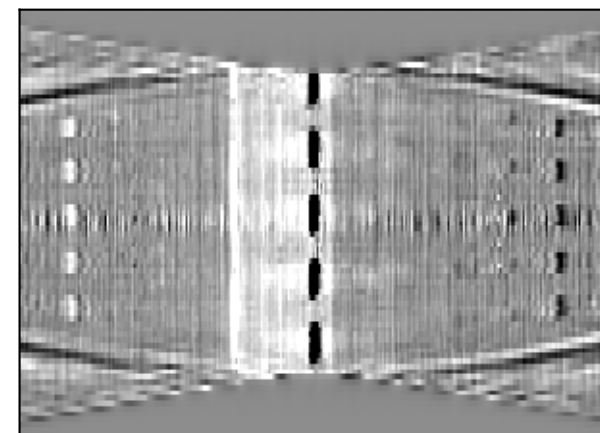

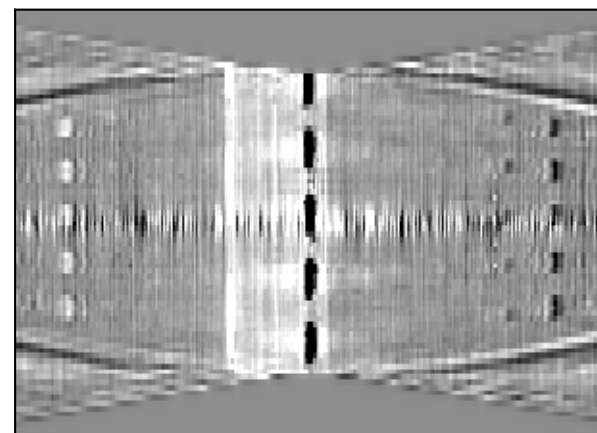

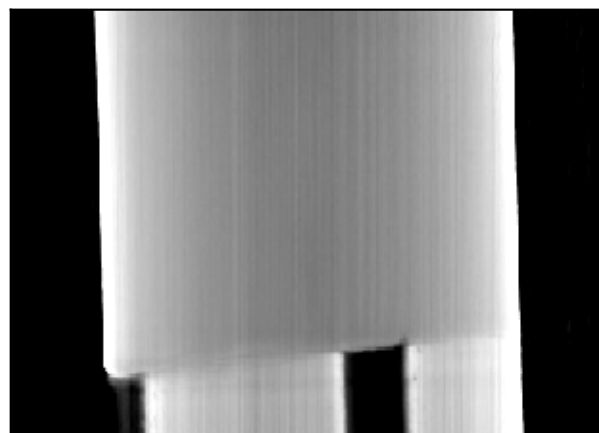

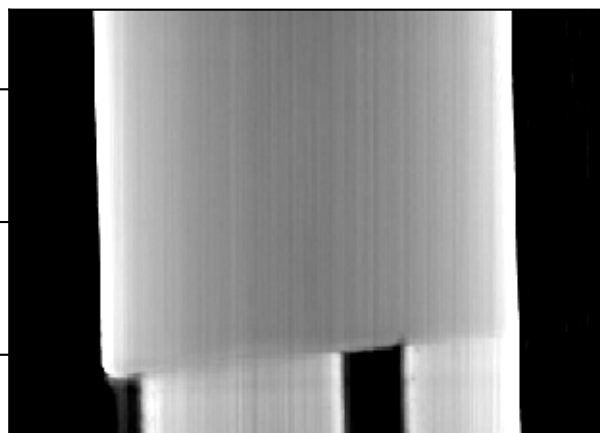

source-plane slice

-50

0

50

$k - k_0$

no artifact; damping on for all 15 iterations changes nothing

artifact present, no reference band; forcing the profile removes part of the peak and leaves the background alone
